PROFESSIONAL SUMMARY

Java developer with a foundation in Core Java, Advanced Java, Spring Boot, Hibernate, JDBC, SQL, and REST API development, gained through a Java Full Stack Development internship at TapAcademy. Built database-driven CRUD applications on MVC architecture with MySQL and HTML, CSS, and JavaScript front ends, including a Student Management System with an integrated AI chatbot, a Banking Application, and a Food Delivery App. Brings communication, accountability, and team-leadership skills from customer support and cashier team-lead roles. Seeking Java Developer, Java Backend, Java Full Stack, and Junior Spring Boot opportunities.

TECHNICAL SKILLS

Programming Languages: Core Java, Advanced Java, Python (Basic)

Backend Development: Spring, Spring Boot, Hibernate, JDBC, REST APIs, OOP, Collections, Exception Handling, MVC Architecture

Frontend Development: HTML5, CSS3, JavaScript

Databases: MySQL, SQL, RDBMS, Database Design

Tools: Git, GitHub, Maven, Eclipse IDE, Visual Studio Code

AI Technologies: AI Chatbot Development, AI API Integration

Development Concepts: CRUD Operations, Authentication, API Development, Layered Architecture

PROFESSIONAL EXPERIENCE

Java Full Stack Development Intern | TapAcademy *Jun 2024 – Jan 2025 | Onsite*

- Completed an intensive, project-based internship in full-stack web development using Java, Spring Boot, and MySQL.
- Built web applications with RESTful APIs, user authentication, and CRUD functionality.
- Developed an e-commerce site following MVC architecture and coding best practices.

PROJECTS

Student Management System with AI Chatbot | Java, Spring Boot, MySQL, REST APIs, HTML, CSS, JavaScript.

- Developed a web application to create, view, update, and delete student records (CRUD operations) using Java and Spring Boot.
- Stored student data in a MySQL relational database and organized the backend into separate, maintainable components following MVC principles.
- Designed REST APIs consumed by an HTML, CSS, and JavaScript front end.
- Integrated an AI chatbot into the management system, where users send messages and receive AI-generated responses through a Spring Boot service layer calling API over REST.
- GitHub: [github]

Banking Application | Java, Spring Boot, REST APIs, SQL

- Developed a banking application supporting account management, balance enquiries, deposits, and withdrawals.
- Implemented transaction processing, with account and transaction data persisted in a SQL database.
- Applied object-oriented design to keep business logic separate from data access.
- GitHub: [github]

PROJECTS (CONTINUED)

Food Delivery App | Java, Spring, Hibernate, MySQL *Full Stack Course Project*

- Developed a full-stack food delivery application connecting restaurants with customers.
- Built the backend with Spring Framework and Hibernate, using MySQL for data storage and management.
- Implemented user authentication, order tracking, and notifications.
- GitHub: [github]

E-Commerce Price Tracking Website | Python, Streamlit, pandas, Web scraping *Academic Project*

- Built a system to monitor and record product prices across online platforms using web scraping.
- Enabled price-alert and price-trend tracking so users can review price history before purchasing.
- GitHub: [github]

ADDITIONAL PROFESSIONAL EXPERIENCE

Customer Support Associate (Voice Process) | Altruist Technologies *Jan 2026 – Jul 2026*

- Handled inbound and outbound customer interactions, resolving queries while meeting quality and SLA targets.
- Maintained accurate customer records with attention to detail and process discipline.

Cashier Team Leader | Tata & Tesco Hypertrend Enterprise *Feb 2025 – Nov 2025*

- Led cashier operations and daily billing, ensuring accuracy, cash reconciliation, and financial accountability.
- Resolved customer complaints and escalations, and trained and mentored team members.

EDUCATION

Bachelor of Computer Application (BCA) | CGPA: 7.65 *2021 – 2024*
Karan Arts and Science College, Thiruvalluvar University

HSC (Mathematics-Biology) | CGPA: 7.87 *2019 – 2021*
Sri VDS Jain HR Sec School, Tiruvannamalai

SSLC | CGPA: 7.53 *2018 – 2019*
Gandhi International Metric High School, Tiruvannamalai

CERTIFICATIONS

- Java (Basic) – HackerRank (view certificate)
- Java Full Stack Developer Course – TapAcademy, Bangalore (view certificate)

LANGUAGES

Tamil, English, Kannada
